

## MONITORING FOR DISEASE PROGRESSION

- **Every 3 months:**
  - PFTs (at least FVC and DL<sub>CO</sub>)
  - 6MWT (distance/nadir saturation)
  - O<sub>2</sub> requirement during activity
  - Comorbidities
  - Consider dyspnea questionnaire (UCSD)
  - Consider periodic overnight pulse oximetry to assess for nocturnal desaturation
- **HRCT**
  - Upon suspicion of clinical worsening
